

Shading for **Outdoor Living**

Expand your living or business area by creating an outdoor space that offers the comfort and security of the indoors.

Install outdoor shades to existing outdoor areas, garages, or pergolas to create space without costly renovations.

Outdoor shades with side channels keep out rain, reduce noise, and control climate and glare. With outdoor heaters or fans, make use of the space all year. Insect resistant fabrics help keep out the bugs. Every application is unique: let us help guide you.

Draper® is your outdoor shading expert. We've been a trusted name in solar control since 1902. Our specialists will show you what works best for your situation, and manage your project from design through installation to give you the perfect solution.

ADVANTAGES OF OUTDOOR SHADES

Comfortable outdoor spaces are more important than ever, in homes, restaurants, healthcare settings, and more.

EXPAND YOUR HOME

Create more outdoor moments and add to your climate-controlled living space without the cost and hassle of an addition. Enjoy outdoor workspaces, elegant areas for entertaining, or relaxing niches on decks and in outdoor rooms despite rain, wind, cold, or heat.

EXPAND YOUR BUSINESS

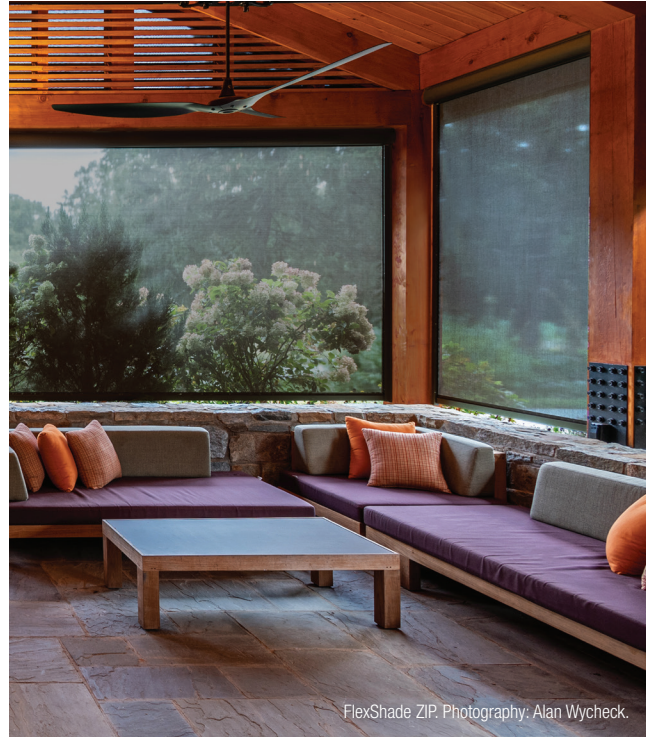

Add capacity without increasing the building footprint. Outdoor shades help control the climate, enhancing customer experience and allowing you to use your additional space year-round and for longer hours.

MAKE IT YOURS

Outdoor shades are customizable to your needs. Use them to create the outdoor space you desire.

Outdoor shades can:

- Control temperature, saving HVAC costs and enhancing comfort
- Block the effect of UV rays
- Increase privacy
- Add to the usable space and beauty of your home or business

FlexShade ZIP Exterior Motorized Shades at The Sunny Pint in Wildwood, FL. Mermet E Screen 5% In Charcoal/Grey fabric. Dealer: Cardinal Aluminum.

FLEXSHADE® ZIP

Extend your outdoor living space with the FlexShade® ZIP.

The FlexShade ZIP creates a sealed enclosure to provide protection from the wind, harsh glare, uncomfortable temperatures, rain, and pesky insects. It's like being outdoors without being in the outdoors!

- Engineered to handle high winds without fabric corner patches. Wind tunnel tested.
- Multiple models fit a wide variety of applications. Visit our website for the models and options which best fit your application.
- Big shades, small footprint. Draper® FlexShade ZIP is available up to 16' wide. FlexShade ZIP XL is available up to 25' wide. Our ability to provide these large shades in a sleek 5 inch headbox is unique among North American manufacturers.
- Obstacle detection motor prevents damage, extends the life of the product, and ensures safety of small children and pets.
- Range of accessories to provide smooth installation in any application.

An outdoor dining area with FlexShade® ZIP enclosure (no glass windows) stays a comfortable temperature with shades down and heaters on!

FLEXSHADE® TENSION ZIP

Tensioned Outdoor Shading System for Angled or Horizontal Structures

- The FlexShade Tension ZIP controls harsh sun glare on existing pergolas, patio rooftops, and sloped windows to create a more comfortable outdoor living space.
- The ZIP feature captures the fabric's edge, ensuring a more secure fabric retention system and improving sunlight control.
- Tension cords in the side channels allow the device to be mounted at any angle, from horizontal to vertical.
- Includes standard RTS Radio Technology Somfy® motor.

EXTERIOR FLEXSHADE®

Enjoy sun-controlled comfort with the Exterior FlexShade® window shade.

- The Exterior Motorized FlexShade mounts directly over the outside of windows or patio openings and uses either side channels or cable guides to keep the hem bar in place.
- Raise or lower shades to the desired position with the simple touch of a wall switch or remote to block harsh sunlight for a more comfortable indoor space.
- Exterior FlexShade provides a clean, uncluttered look.
